

The PANS3 Arrow is a safety grade flexible photoluminescent polyester film coated with a permanent acrylic adhesive that has been designed to exceed requirements for emergency egress and other safety standards.

**ADA**

## INSTALLATION

Easy peel and stick application. The PANS3 Photoluminescent Arrow is designed for indoor safety applications such as safety signage in building, marine, rail, marine, and military applications. The arrows absorb ambient light and glow in the dark to clearly mark egress path in low light/low visibility environments.

## CONSTRUCTION

The PANS3 Photoluminescent Arrow is designed with a flexible photoluminescent polyester film.

## ELECTRICAL COMPONENTS

The PANS3 Photoluminescent Arrow does not require any type of electrical components.

## FEATURES

- No electricity, no batteries
- Thin gauge polyester film
- Peel-off adhesive backing makes installation easy and low-cost
- Requires 54 LUX (5-ft candles) of LED, fluorescent, metal halide or mercury vapor light to charge material for 60 minutes
- Install indoors only
- Long life expectancy
- Non-toxic and non-radioactive
- High tack backing sticks to rough surfaces
- No future hazmat disposal needed

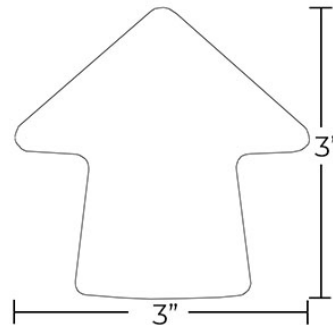

## WARRANTY INFORMATION

Any component that fails due to manufacturer's defect is guaranteed for 1 year. The warranty only covers products installed and maintained in accordance with the instructions provided by their respective manufacturer and no warranty is made with respect to any of our products that are otherwise installed or maintained. For full warranty details, visit our Warranty Section.

## Conformance to Codes and Standards

The PANS3 Photoluminescent Arrow meets or exceeds the following codes: NFSI certified for High Traction and meets Prop 65, ADA, and OSHA standards.

## DIMENSIONS

Weight : 2.00 lb
