	DR (Down Right)
	DL (Down Left)

## **CONSTRUCTION**

This photoluminescent Egress Sign is constructed with non-toxic, non-radioactive Glo Brite® photoluminescence technology.

## **ILLUMINATION**

Under normal lighting conditions, these signs are highly visible. In the event of low or no lighting due to power failure, the lettering on the signs will "Glow in the Dark". (Signs must be "charged" to glow -- requires 54 LUX (5ft candles) of fluorescent, metal halide or mercury vapor light illumination for 60 minutes).

## **EMERGENCY OPERATION**

Upon failure of the normal utility power, this unit will provide at least 90 minutes of illumination. \*This sign must be charged for a minimum of 60 minutes prior to being fully operational.

## **INSTALLATION**

No electricity or battery required. These signs can be easily placed on any surface using double-sided tape (not included).
