GLOW IN THE DARK NEW YORK CITY CODE APPROVED SAFETY TAPE

A simple way to add additional emergency egress signage. Meets stringent New York City safety codes (New York City Building Code Reference Standard RS 6-1 & 6-1A and Local Law 26 of 2004). In the event of an emergency, the tape is immediately visible, providing a safe evacuation path.

No electricity or battery required. Easily affixes to walls, handrails, columns, around doorframes, and along stairways and baseboards.

Under normal lighting conditions, this tape is highly visible. In the event of low (or absence of) lighting due to power failure the tape will "glow-in-the-dark". (Tape must be "charged" to glow – requires exposure to 54 LUX (5-ft candles) of fluorescent, metal halide or mercury vapor light illumination).

When ordering, use appropriate code (sold by case only).
